They take account of one another's ideas and show sensitivity to others' needs and feelings, and form positive relationships with adults and other children.			Children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.			Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe.
